The Villager Collection. Solid Choices In Solid Brass.

The Villager Collection of brass faucets includes stylish polished chrome or white lever handles.

The collection incorporates traditional Central Brass quality

and style designed expressly for the kitchen, bar and lavatory.

The faucets' solid brass construction provides maximum durability, as well as a choice of compression stems with

replaceable seats or ceramic disc cartridges. Units with quarter-turn ceramic stems are ADA compliant.

For the heart of your home you can depend on a "heart of brass" faucet from Central Brass.
